

Cost Optimization Assessment

Maximize your Cloud Cost Takeout With Expert Strategies and Automation

- **FREE** Cost Optimization Assessment
- **15-50%** cloud cost savings
- **FREE 30-Day Trial - CoreStack** SaaS Cloud Management

Enhance Your Cloud Cost Optimization Strategy With Cloudelligent

- AWS Config Delivery
- Amazon RDS Delivery
- AWS Lambda Delivery
- AWS Control Tower Delivery
- Amazon API Gateway Delivery

- Storage Services Competency
- AWS Systems Manager Delivery
- Migration Services Competency
- Amazon EC2 for Windows Server Delivery

Uncover **15-50%** increase in cloud cost savings, instantly.

Get a **FREE** Cost Optimization Assessment by our Customer Success team.

Stay in **control**. Continuously monitor your cloud infrastructure for changes that affect costs.

5 Key Questions to Consider About Cloud Costs

Are you struggling to identify cost savings in the current economic climate?

Do you know your top 5 cloud services that drive high costs?

Are you over-engineering your resources or provisioning them inefficiently?

Do you have processes to eliminate waste such as zombie instances or underutilized resources?

Are you monitoring changes to manage your cloud resources and costs across accounts, regions, departments, and projects?

Explore our **FREE Cost Optimization Assessment** offer on

Ready to Spend Smarter? Get Your Free Cost Optimization Assessment!

Cloud Smarter, Not Harder

Unlock savings with a Cost Optimization Assessment and a 30-day trial of CoreStack Cloud Management Platform - on us!

Get a Cost Optimization Assessment - Absolutely FREE!

Work with the FinOps dream team. That's your Cloudeelligent Technical Account Manager, along with certified Solutions Architect and a Project Manager. Get a comprehensive evaluation in just 1-2 hours.

Enjoy a FREE 30-day trial of CoreStack!

Transform your resource and cost optimization with CoreStack - the ultimate FinOps platform. Streamline governance and provisioning with lightning-fast DevOps speed. No compromises, just results.

Cloudeelligent Cost Optimization Mini-Workshop!

Discover how CoreStack elevates cost optimization by continuously monitoring infrastructure changes. Let us show you how in a team session!

Why Choose Cloudeelligent to Optimize Your Cloud Costs?

Because We're Experts at Cost Optimization and Cloud Management!

Optimize your cloud costs while building the security, reliability, performance efficiency, and operational excellence that your business requires.

[Cloudeelligent](#) is your go-to cloud consulting partner, backed by a track record of successful customer engagements.

Let us help you maximize your savings and fuel your business growth. With expertise in DevOps, Data & Analytics, Cloud Migration, and SaaS, we have the know-how to take your business to the next level.

How Our Cost Optimization Assessment Can Revolutionize Your Business?

Take Advantage of Our Free Cost Optimization Assessment!

- Identify potential cost savings with our Customer Success team, leveraging CoreStack's powerful auto-discovery technology.
- We also provide an extensive report of findings for your review.

Optimize Resources and Slash Costs with CoreStack - Free 30-Day Trial!

Maximize your cost efficiency with **CoreStack**.

- Instantly identify infrastructure changes that affect costs, identify underutilized resources, and plan smarter with an advanced AI-powered analytics platform.
- Continuously analyze instances, track costs across your accounts, and receive real-time notifications of any billing anomalies.

Qualify for a 2% Discount of Your Bill

Take charge of your cloud usage with a consolidated billing model for your accounts.

- Reduce account sprawl and overspending while enjoying tiered discounts and aggregated support costs.
- Gain full visibility and control of your organization's cloud usage with ease.

Seize Control of Your Costs and Lower Your Bill

Tired of overpaying for services?

- Apply rightsizing strategies, and identify zombie instances, underutilized resources, and unused elastic block volumes.
- Use spot instances, reserved instances, and savings plans to reduce your cloud costs by up to 50%.

Demystify Your Bill and Gain Deeper Insights Into Costs

- **Analyze Cloud Compute Usage:** Identify where compute growth is occurring and what % of compute billing is for data transfer between cloud zones, block storage volumes, and GPUs?
- **Optimize Network Costs:** Understand the % of network egress costs, and improve resource efficiency outside of cloud zones while reducing payloads.
- **Track Net Monthly Cost Growth:** Identify cost drivers such as increasing network bandwidth.

Reduce Waste and Optimize Your Data Usage

Do you really need all that data?

- Extract the most useful data and archive or delete the rest.
- Optimize frequently accessed data and identify unused cloud storage and log groups.
- Save costs by adjusting database instances based on your actual utilization.
