aws PARTNER Advanced Tier Services

- AWS Config Delivery
- Amazon RDS Delivery
- AWS Lambda Delivery
- AWS Control Tower Delivery
- Amazon API Gateway Delivery

- Storage Services Competency
- AWS Systems Manager Delivery
- Migration Services Competency
- Amazon EC2 for Windows Server Delivery

Slash your review time by up to **50%** with AI-powered automation for maximum efficiency.

Get a **personalized** WAFR Findings Report pinpointing issues and risks in your AWS envirnornment.

Engage in a **1-hour** consultation for expert guidance on optimizing technology workloads.

Accelerate Digital Innovation With AI-Powered Reviews

Digital Native companies propel innovation through robotics, VR/AR, IoT, hardware and software development. Yet, they may face challenges in scalability, security, and cost due to complex tech stacks.

Cloudelligent accelerates reviews with AI-powered automation for your digital native technology ecosystems. Leveraging advanced AI, we analyze your workloads against industry best practices. Let us help you automatically uncover potential security vulnerabilities, performance bottlenecks, and cost optimization opportunities.

Our certified AWS experts will review the findings and provide you with actionable recommendations to optimize your workloads. Future-proof your digital initiatives and free your teams to innovate with confidence!

Cloud Smarter, Not Harder

How Your Review Is Conducted?

STEP 1: WAFR Overview Session

- Engage in a **30-minute** consultation with our Solutions Architect.
- We explain the WAFR process and scope, and answer any questions you may have.

STEP 2: Onboard Automation Tool

- Connect your AWS accounts to an AI-powered tool configured for Digital Native workloads.
- Enable automated and secure data collection and analysis.
- Audit operations for compliance with the six pillars of the AWS Well-Architected Framework.

STEP 3: WAFR Findings Report and Presentation

- Receive a detailed report with high-risk and medium-risk findings.
- We present findings and recommendations and discuss an improvement plan within a **60-minute** session.

Next Steps: Remediate

Based on the report findings, Cloudelligent helps you resolve issues to support your business. You can:

- Decide to implement recommendations and receive up to $5,000 AWS credits per workload. (Actual remediation work performed by Cloudelligent may have associated costs.)
- Perform periodic checks on the assessment to enhance your score and work on recommendations.

Key Deliverables

We generate highly accurate and customized reports based on our expert review and analysis.
