Be audit-ready in up to **50%** less time with AI-powered automation tools designed for HIPAA.

Receive a **personalized** report of your current HIPAA compliance posture and data protection strategies.

Engage in a **1-hour** consultation session and receive expert guidance on enhancing HIPAA readiness.

Streamline HIPAA Compliance for Enhanced PHI Protection

Ensure your healthcare company adheres to the regulations set forth by the Health Insurance Portability and Accountability Act (HIPAA) with our HIPAA Readiness Assessment. Let Cloudelligent empower you to safeguard the privacy and security of your healthcare data (PHI and EHR) when it is stored, processed, or transmitted in the cloud.

We help accelerate your HIPAA audit readiness and accuracy by leveraging powerful HIPAA automation platforms for Amazon Web Services.

How We Review Your Healthcare Workloads on AWS?

STEP 1: Gather Information

- Identify your business objectives and healthcare workloads to be reviewed.
- Identify stakeholders and understand expectations.
- Onboard AI-powered compliance assessment platforms specifically tailored for healthcare environments.

STEP 2: Review Your Workloads

- Review the blueprints and solution architecture of your AWS workloads within the scope of HIPAA using specialized assessment platforms.
- Examine PHI (Protected Health Information), EHR (Electronic Health Records), security policies, procedures, controls, and supporting evidence.
- Identify any potential vulnerabilities, security gaps, and regulatory non-compliance with HIPAA.

STEP 3: HIPAA Readiness Review Session

- Receive intelligent HIPAA compliance recommendations including risk mitigation and best practice plans, all within a **1-hour** consultation session.
- Outline and prioritize areas for HIPAA compliance to ensure comprehensive alignment with regulatory standards.

Key Deliverables

We generate highly accurate and customized reports based on AI-powered tools' review and analysis.
