

AI & Machine Learning

Drive Innovation, Maximize Efficiency & Stay Competitive with Cloudeelligent's AI & ML Solutions on AWS

- Streamlined implementation for seamless AI integration.
- Actionable analytics and automation for efficiency.
- From ideation to deployment with AWS expertise.

Transform Business with AI & Machine Learning

Cloudeelligent pioneers AI/ML and Generative AI solutions, equipping businesses with AWS-driven intelligence to drive innovation, automate processes, and extract actionable insights across industries. Our proven solutions cut through complexity, turning AI challenges into business victories.

Breaking Through AI Barriers: Your Path to Success

Talent Gap → AI Excellence: Transform your team into AI champions with our expert-led training and hands-on guidance. Skip years of trial and error.

Technology Complexity → Proven Solutions: Successfully implement AI with proven methodologies that ensure reliable outcomes and streamlined deployment.

Data Challenges → Strategic Insights: Turn data chaos into your competitive edge. Our architectural expertise ensures your AI foundation is built for scale.

Business Impact → Measurable ROI: Move beyond AI experiments to revenue-generating solutions. We help you identify, implement, and measure what matters.

From Challenge to Triumph: Why Cloudeelligent?

AWS Partner Since 2018: Trusted AWS partner with deep technical expertise.

Certified AI/ML Specialists: Experts in training and deploying AI models.

End-to-End AI Solutions: From ideation to implementation, we cover it all.

Cost-Efficient & Scalable: AI services designed for rapid scalability and optimization.

Our Comprehensive AI & ML Solutions

Strategic Planning & Implementation

Turn your AI vision into reality with strategic roadmapping, design, and validation.

AI & ML Development

Build and optimize AI models for automated, intelligent solutions tailored to your business.

MLOps & Infrastructure

Ensure reliable AI with smooth deployment, efficient scaling, and continuous improvement.

AI Applications & Integration

Develop AI-powered apps that integrate seamlessly and drive measurable results.

AI & ML Services We Leverage on AWS

Amazon Bedrock

Build and scale applications using LLMs, foundation models, and generative AI tools.

Amazon SageMaker

Train and deploy custom ML models at scale with enterprise-level security.

- **Amazon Q Business:** Enhance productivity with AI-driven business insights.
- **Amazon Q Developer:** Accelerate software development with AI-powered coding assistance.
- **Amazon Q in QuickSight:** Unlock deeper analytics with AI-driven data visualization.

AWS Proof of Concept (PoC) Funding

Purpose

Validate AWS solutions before full adoption.

Eligibility

Small-scale projects not fully committed to AWS.

Funding

Up to 10%, capped at \$25K (cash or credits).

Benefit

Reduces risk and accelerates decision-making.
