## Our 4-Phase Approach to a Seamless Cloud Migration

### Phase 1: Discovery & Assessment

- Map infrastructure and app dependencies
- Evaluate cloud readiness
- **Deliverable:** Migration Readiness Report

### Phase 2: Migration Planning

- Design AWS architecture and security
- Select migration tools
- Define wave-based migration plans
- **Deliverable:** Migration Plan & Target Architecture

### Phase 3: Migration Execution

- Execute migrations in structured waves
- Set up or validate AWS Landing Zone
- Ensure seamless cutover with minimal downtime
- **Deliverable:** Migrated Systems & Cutover Summary

### Phase 4: Post-Migration & Hypercare

- Monitor environment and resolve issues
- Transfer knowledge and ensure stability
- **Deliverable:** Support Summary & Final Handoff
