Transform Your SaaS Offering With an FTR

Establish a solid foundation of trust with your customers by leveraging Cloudelligent's Foundational Technical Review (FTR) services to ensure that your software adheres to the AWS Well-Architected Framework.

Evaluate the security, reliability, and operational excellence of your application's technical architecture with Cloudelligent's team of experts. Drive business growth when we help you adopt AWS best practices to strengthen security, enhance performance, and seamlessly scale your SaaS solutions.

What is an AWS Foundational Technical Review?

- Evaluates your SaaS solution's technical architecture and its alignment with best practices.
- Focuses on a subset of the AWS Well-Architected Framework (i.e. security, reliability, and operational excellence).
- Helps identify &mitigate technical risks for AWS ISV Partners.
- Generates recommendations to optimize performance and functionality.

How Your Review Is Conducted?

STEP 1: FTR Overview Session

- Session with our resident Solution Architect.
- We explain our FTR process, focusing on best practices and identifying improvement areas.

STEP 2: Onboard Automation Tool

- Connect your AWS accounts to Archera.
- Enable automated and secure data collection and analysis.
- Audit your software or solution against the AWS Well-Architected Framework best practices to reduce risks around security, reliability, and operational excellence.

STEP 3: FTR Findings Report and Presentation

- Generate a detailed report that shows the high-risk and medium-risk issues identified by the automation tool.
- Present the findings and recommendations to the stakeholders and discuss the improvement plan along with priorities.

Next Steps: Remediate

- Cloudelligent helps you address the identified issues to facilitate your business growth. (Actual remediation work performed by Cloudelligent may have associated costs.)
- We help you submit the final FTR report to AWS and apply for AWS FTR ISV credit funding.
- Our team also provides you with all of the necessary evidence to pass an expedited Foundational Technical Review and earn your badge!
