Quickly Identify and Resolve High-Risk Issues

Optimize Your Workloads to Elevate Performance

Reduce your AWS bill by an average of 18% to 35%

## Is Your Cloud Environment Well-Architected?

Do your workloads adhere to the AWS operational best practices?

---

Explored all the available cost optimization opportunities?

---

Is your infrastructure highly available, fault-tolerant, and scalable?

---

Are you continuously monitoring and strengthening your security posture?

---

Leveraging the latest AWS tools and technologies to drive innovation?

**Explore our FREE Well-Architected Review offer on**

 **Ready to Assess Your Cloud and Accelerate Business Innovation? Start Your Free Evaluation!**

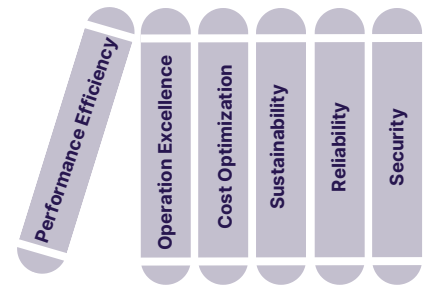

*Cloud Smarter, Not Harder*

## Evaluate Your Cloud Infrastructure for Optimal Transformation

Identify opportunities for cost savings, enhance application performance, and reduce security risks in your cloud environment with a Well-Architected Framework Review from [Cloudelligent](#).

Leveraging our status as an authorized AWS Well-Architected Partner, we perform a thorough assessment of your workloads and help you adopt AWS best practices to revolutionize your business.

**6 Pillars of AWS Well-Architected Framework**

## Keep your cloud optimized with a Well-Architected Framework Review and a 30-day trial of CoreStack Cloud Management Platform - on us!

### FREE WAFR

Work with the cloud dream team. That's your Cloudelligent Technical Account Manager, along with an AWS-certified Solutions Architect and a Project Manager. Get a comprehensive evaluation in just 2-3 hours.

### FREE 30-day Trial of CoreStack

Assess and enhance your cloud infrastructure with CoreStack, an AI-powered multi-cloud governance solution. Adopt cloud best practices, manage risk, and maintain secure, resilient, cost-efficient infrastructure on AWS.

### \$5K AWS Credits

We will assist you in applying for \$5000 of AWS service credits to offset the costs of Cloudelligent remediating your high-risk issues uncovered in the review.

## We Leverage CoreStack to Accelerate Your WAFR

Conduct a precise evaluation of your cloud infrastructure based on established best practices.

Leverage automation to identify any deviations from Well-Architected best practices in your workloads

Discover untapped opportunities for cost savings of up to 40%.

Rapidly detect critical issues and receive automated recommendations for strengthening security

Enhance performance and reliability through improved design to drive your business growth.

# Benefits of Evaluating Workloads with Well-Architected Reviews

Quickly Identify and Remediate Security Risks

Enhance Your Performance and Operational Efficiency

Optimize Your AWS Usage and Lower Costs

Keep Current With the Velocity of New AWS Services

Receive Up to \$5K AWS Credits for Remediation

## What Makes Cloudeelligent the Best Choice for WAFRs?

**Well-Architected Foundation**  
Work with an AWS Advanced Consulting and Well-Architected Partner.

**Easy and Secure Setup**  
Onboard your AWS accounts quickly and securely using our templates with read-only and time-limited access.

**Quick Results**  
Obtain results of your Well-Architected Review for each workload within 30 minutes.

**Elevated Support**  
Receive support for Well-Architected and FTR (Foundational Technical Review) Lenses.

## How Your Review Is Conducted?

### STEP 1: Gather Information

- Identify your business objectives and workload(s) to be reviewed.
- Gather and prepare the relevant data.
- Identify stakeholders and set expectations.

### STEP 2: Review

- Conduct a Q&A session between you and Cloudeelligent.
- Deploy CoreStack to accelerate your AWS Well-Architected Reviews.
- Perform a deep dive on your target workload(s).
- Audit operations for compliance with the six pillars of the AWS Well-Architected Framework.

### STEP 3: Report

Generate a report that identifies:

- Areas of items categorized as Critical, Needs Improvement, or Meets Best Practice.
- Opportunities for performance optimization and cost savings.

### Next Steps: Remediate

Based on the report findings, Cloudeelligent helps you resolve issues to support your growing business. You can:

- Decide to implement recommendations and receive up to \$5,000 AWS credits per workload. (Actual remediation work performed by Cloudeelligent may have associated costs.)
- Perform periodic checks on the assessment to enhance your score and work on recommendations.
